

### REMARKS

This Preliminary Amendment is being submitted to i) correct the English-language title of the application from the title of the application as translated and published on WO 03/074736 in the international phase to the correct title as set forth on the English-language translation of the application transmitted to the United States Patent Office with the national papers on 02 September 2004 (02.09.04), and ii) correct SEQ ID NOS. 6 and 16 from the incorrect sequences listed in the description in the English-language translation of the application transmitted to the United States Patent Office with the national papers on 02 September 2004 (02.09.04), to the correct sequences as listed in the Sequence Listing transmitted concurrently therewith. There is no new matter added by means of the amendments.

It is requested that the Examiner consider the First Preliminary Amendment filed on 02 September 2004 (02.09.04), the Substitute First Preliminary Amendment filed 29 September 2004 (29.09.04) together with this Second Preliminary Amendment transmitted herewith prior to examination of the national application.

With the entry of the foregoing amendments, the application is believed to be in condition for examination and allowance. Consideration of the claims, leading to their allowance and passage of the application to issuance, is respectfully requested.

Respectfully submitted,

James K. BLODGETT
